

37 ZOOB PIECES

ZOOBMobile™

GUIDE A

USE THIS GUIDE
FIRST

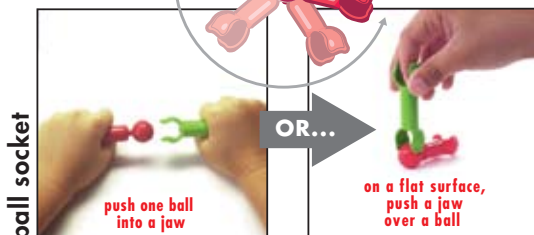

UNLIMITED CREATIVE BUILDING
INFINITOY™

These basic connections will help you make lots of creations.

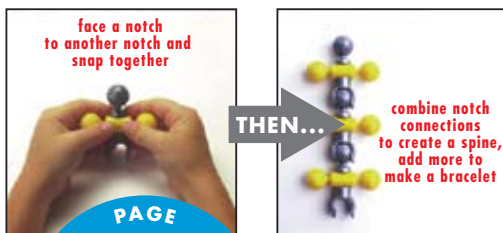

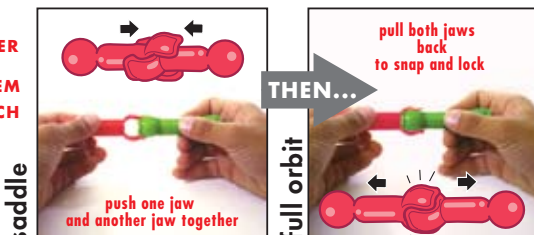

ZOOB pieces rotate and lock into more than 100 different positions!

BASICS

BALL — **CRATER**
BODY — **STEM**
JAW — **NOTCH**

Each ZOOB piece has its own shape.

KEEP FINGERS OUT OF CONNECTIONS

Welcome to

The Moving, Mind-Building, Modeling System™

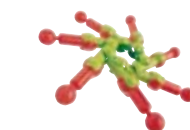

ZOOB's five basic pieces snap, click, and pop together more than 20 different ways, and this booklet teaches you how to connect them (after you've connected them, be sure to check out how they move!). When you've mastered these connections, you'll be ready to start making the ZOOB vehicles in this booklet, and to use your imagination to invent your own ZOOB vehicles and creations.

The five basic ZOOB pieces

CONNECTIONS

PAGE

4

With more ZOOB pieces, you can connect fireman's weaves to form a pattern.

Create these basic structures and make them move.

twist the pelvis

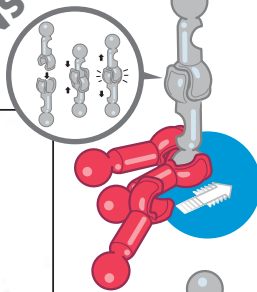

make a foot

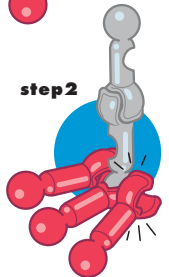

CONNECTIONS

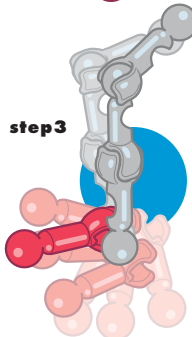

step 1 (foot)

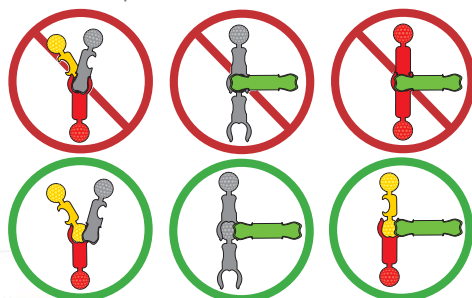

step 2

step 3

Take care of your ZOOB pieces and avoid bad connections—they wear out ZOOB jaws.

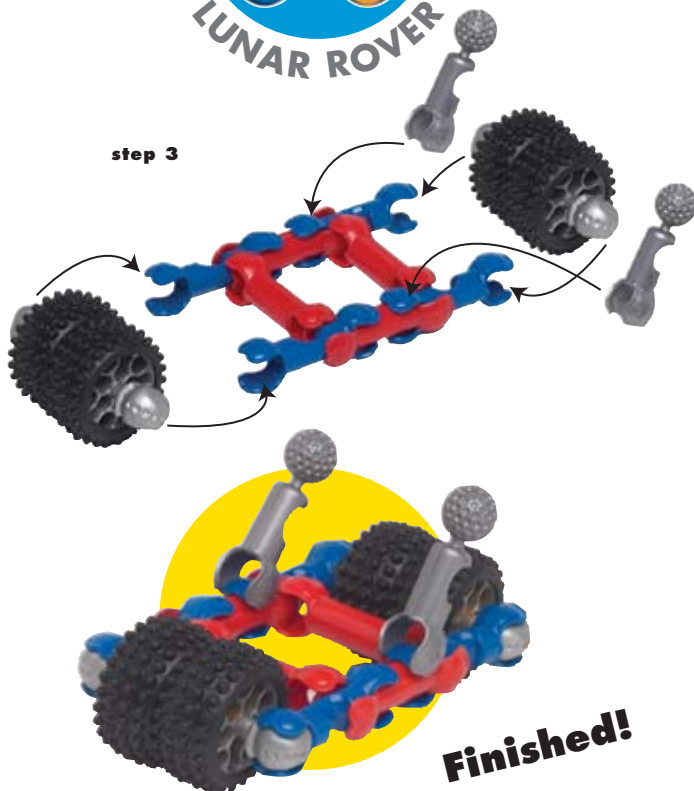

Mend your ZOOB jaws by GENTLY squeezing them together.

IF your family has a digital camera, ask your parents to take pictures of the vehicles you invent and email them to us at **ZOOB@infinitoy.com** (or mail pictures to the address below). Please give your vehicles a name, and, if it's okay with your parents, include your first name, age, the city, state, and country where you live, and the number of ZOOB pieces of each color/shape you used to make your vehicle. Then visit **www.infinitoy.com** to see if your vehicles make it into our **ZOOB Gallery**, and to see (and get ideas on how to build) the vehicles that other kids have invented.

THE ZOOB GUARANTEE

We manufacture ZOOB pieces from high-quality materials, but if one or more of your ZOOB pieces break (for any reason), send us the broken pieces along with a self-addressed envelope with return postage and we'll replace them at no charge.
